Biography

I've been working in the creative field for many years as a Photographer, Graphic Designer and Video Production Artist. Anyone that knows me knows that I carry a camera wherever I go. Whether it's my pro camera or my cell phone, I'm always ready to take a picture of whatever catches my eye.

As a Multimedia Artist, I work in the fields Photography, Graphic Design, Video, Painting and Drawing. The wide variety of skills and conceptual understanding I have obtained through my student and professional work allows me to convey ideas through media that best fits the topic. I pride myself on the level of professionalism, unique perspective, and attention to detail I bring to each project.

My work as a Photographer includes Portraiture, Live Performance, Landscape, Photojournalism, Medical, Still Life, Weddings, Documentary and more. I have a strong sense of composition, and combined with my use of light sources, the images I photograph convey a sense of emotions. My photography work has been published in Cleveland's Scene Magazine from 2003 to 2008 and used by numerous clients for both personal and professional use.

I earned my Bachelor's of Fine Arts degree (BFA) from The Cleveland Institute of Art with a concentration in Technology and Integrated Media Environment, Major emphasis in Video, and I graduated Cum Laude from Cuyahoga Community College with an Associate of Applied Business Degree in Visual Communication and Design with a concentration in Interactive Media.

My high grades and achievements were awarded multiple honors, including Dean's Honor Roll at Cuyahoga Community College and Merit Scholarship at The Cleveland Institute of Art.

My work has been screened and displayed at student art shows, regional film festivals and published in Cleveland Scene Magazine.
